Fine Tuning Your Family: Family Dynamics Training For Families with Deaf and Hard of Hearing Children

Presenter:

Matt Rider, Training Specialist
Laurent Clerc National Deaf Education Center

Description:

Hearing families with deaf or hard of hearing children can face unique challenges related to family dynamics and communication. Communication strategies, family constellations and roles, and family values all impact the way a family operates as a system. External pressures such as advocating for their deaf or hard of hearing children in education settings can add another level of stress to the family system. This workshop explores some simple but effective strategies for hearing parents with deaf or hard of hearing children to fine tune their family system.

Participants will:

- Gain an understanding of the ways that family roles, birth order, responsibilities, communication, and personality styles impact the functionality of their families
- Gain insight into the kinds of factors that influence their families and what they can do to positively affect them
- Learn and practice practical strategies to resolve conflicts, to communicate more clearly and effectively, to support each other, and to prioritize "family time"

There's no cost involved for participants, but it requires pre-registration. To reserve your spot, please call DEAF Inc. at (314) 714-6400 or email info@deafinc.org.

Date:

Saturday, March 3rd, 2012

Time:

9:00 am - 12:00 pm

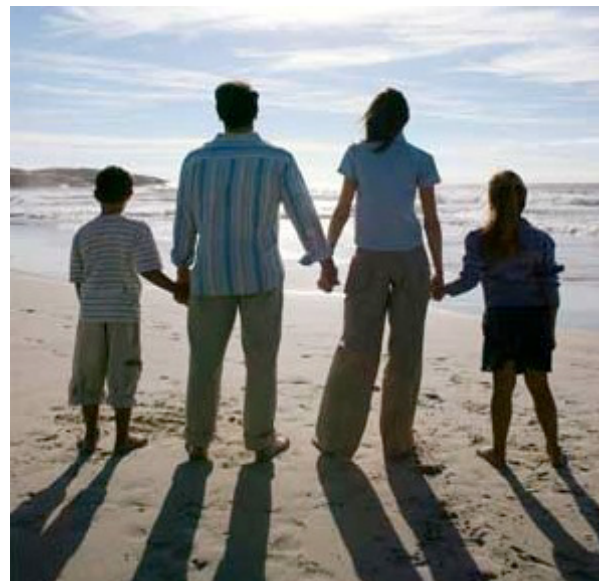

Location:

DEAF Inc.

25 E. Frisco Avenue

Webster Groves, MO 63119
